Tally Chart - What are you going to investigate?

I am going to find out how many _____

Item	Tally Mark	Total

26/2/21

I can apply my understanding of tally charts to create pictograms.

Now, using the tally chart you have completed, create a vertical pictogram showing your results.

<u>Key</u>
= _____

I can apply my understanding of tally charts to create pictograms.

Using the information you have collected, complete the statements below by interpreting your data.

1. _____ has the fewest number of items record.

2. _____ has the greatest number of items recorded.

3. What is the overall total of items you have recorded?

4. There are more _____ than there are _____.

5. There are less _____ than there are _____.

Could you create a question of your own relating to the data you have collected?
