

Landaviddy's Homework Grid - Autumn Term 1

Enquiry Question: Who rules the animal kingdom?

Go for a walk with your family in the local area.

Go on a minibeast hunt in your local area. You could create a tally chart to record your findings. How many different minibeasts can you spot?

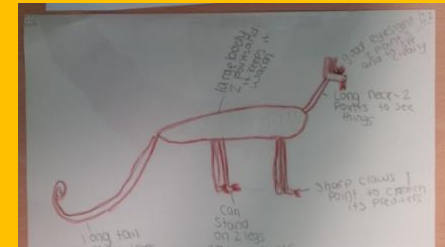

Write a story about your favourite animal.

What might your animal get up to? How do they feel? What might they be thinking? Do they go on adventure? Can you use adjectives and conjunctions in your writing?

Design your own animal

What does your animal eat? Where does your animal live? Can you describe what your animal looks and sounds like? What will it be called?

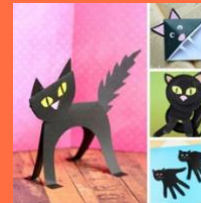

What did animals look like in the past?

Conduct your own research to find out how an animal may have looked like in the past. Where would they live? What would they eat? How are they different to animals alive today?

Create your own artwork inspired by an animal.

What animal will you choose to inspire your artwork? What materials will you use? Will your artwork be 2D or 3D?

Ready. Set. Go!

Create your own obstacle course in your garden. How fast can you complete the circuit? Could you challenge a family member to compete against you?
